## **DIRECTOR'S REPORT - July 2023**

#### Districtwide Update - Library Director Ann Kling

#### Highlights

- The Library District submitted their first request for reimbursement from the Department of Local Affairs, Energy Impact Grant. The District was fortunate to receive the grant, which will help with the cost of building the branch in Severance. Reimbursement is calculated on a 90%- 10% rate, which means the library district receives 10% of each construction invoice submitted. As construction ramps up in the next months, the library district will be rapidly spending down the grant.
- The branch library building project is still on target to be completed in February 2024
- Furniture and shelving vendors were selected based on an RFP posted by Wember, Inc.

#### **Opportunities**

• The Strategic Planning Committee meetings, composed of community members, have provided the Management Team with an opportunity to explain more about library operations and services. The Committee has met twice and will continue meeting into the fall in order to provide feedback for the strategic plan covering the years 2024-2025.

#### Challenges

• Bats have determined that the renovated Windsor-Severance Library is a good place to reside. Removing them has proved to be challenging. The library district has hired an expert to assist, however, the process is very slow.

#### Personnel

- Library Board 101 was the All Staff virtual meeting topic on Friday, Aug. 4. Ann Kling presented a slideshow on the duties and responsibilities of trustees. Trustees were on hand to introduce themselves and tell the staff their "why" for becoming a library board member.
- Adult Services Assistant Sarah Strawn, Customer Service Specialist Laura Blakley, and Children's Services Assistant Julie Santilli were hired and began working for Clearview Library District in July.

#### Board of Trustees Meeting Highlights - July 2023

- Communications Specialist, Christine Henschler presented the 2022 Impact Report to the Board of Trustees.
- Library Board Treasurer, Ron Dunworth, presented the annual investment review to the Board.

#### Public Services Update - Public Services Manager Casey Lansinger-Pierce

#### Highlights

- We wrapped up the Summer Adventure Program in late July with our annual Summer Carnival, held at the Windsor Severance Library parking lot. We saw over 350 individuals participate in bouncy castles, jousting, ax throwing (soft axes), and much more. During the event we also went live on Facebook to announce our grand prize winners.
- We kicked off our Young at Art partnership -- with the Town of Windsor Museums -- at a kick-off party hosted at the Arts and Heritage Center at the beginning of July. The Young at Art exhibit focused on celebrating Caldecott winners and honor books. At the kick-off event, we brought the bookmobile and also set up a craft table for families to participate in. We saw over 175 individuals at this event.
- We welcomed Sarah Strawn onto our Adult Services Team in July after Maria Mulreaney stepped down to spend more time with her husband. Sarah has worked at Loveland Public Library and Poudre River Library District and brings with her lots of new ideas for adult programming.

#### **Opportunities**

- We currently have 24 active teen volunteers who have been a fantastic help during large events over the summer. Additionally, our teen volunteers assist Teen Librarian Amy McFadden with collection maintenance and other tasks as they come up.
- We partnered with the Weld RE-4 School District over the summer to once again offer storytime for students participating in the ESY (extended school year) program. ESY serves to support students for whom time off during the summer is a serious impediment to their learning success. Mobile Services Assistant Christy Olson uses her fluency in ASL to communicate with some of the students who are part of this program. Over the summer, we visited various ESY classrooms 24 times and served an average of 18 students per visit.
- Sarah Penner, author of *The Lost Apothecary*, has been officially selected as our 2024 Clearview Reads author. Sarah will join us in April for her author talk. We look forward to developing tie-in programming related to Sarah's books' themes.

#### Challenges

- We are still feeling the challenges of having space restraints in the Windsor Severance Library when it comes to hosting programs out of the large meeting room. On occasional Tuesdays, we have a quick turn-around between a tween book club program and an adult program that has become difficult to navigate. We have come up with solutions to address this problem, but they aren't ideal. We are thankful for programmers who are flexible and understanding of our ongoing space constraints.
- Planning for our fall bookmobile schedule usually proves challenging as we are waiting to hear back from teachers / Weld RE-4 staff (who are typically on summer break when we create the schedule) so that we can add school stops to our regular schedule. We usually plan our programs and stops a couple of months out, so our schedule with the school district doesn't always align.

#### IT & Technical Services Update - IT & Technical Services Manager Beth Gallinger

#### Highlights

- We have moved all our backups to our much newer Buffalo NAS the previous hardware was approximately ten years old. We are also doing off-site backups to our upgraded server at the Windsor Severance Library. Overall, we are much more confident in our backups and the ability to restore if necessary.
- We have finalized all of our Severance branch opening day collections and sent this information to Ingram and Midwest, our two main physical collection vendors. They are now starting to program their systems so that we can test ordering for the Severance branch collection. We will meet with the selectors in August to review the ordering process.
- IT staff has been working with our children's programmers to coordinate filming the Caterpillar to Butterfly program. It has been a wonderful time watching the transformation and sharing with our patrons, and IT staff are always excited to collaborate with our programming staff to create innovative ways that we can involve patrons.
- The end of the summer adventure program carnival is always a highlight of Clearview Library District, and the IT & Tech Services teams always enjoy helping where we can. We'd like to give a shout-out to Casey Lansinger-Pierce and the whole public services team for doing such a wonderful job you are all amazing! Thank you for your hard work.

#### **Opportunities**

- The discovery layer selection committee had the last demonstration of the discovery layer options. They saw Bibliocommons which is from a Canadian company that works with some large systems in the US, including Chicago Public Libraries. This discovery layer is very user-engaging and has many social aspects to it. The final decision will be made in August.
- IT staff started the initial server room cleanup by removing all extra cabling and began mapping out the physical network port by port. This is a multi-step process, but the room is starting to get much easier to navigate and find where things go. We are also in the process of removing some old equipment. Next steps will also include cleaning the online Meraki interface into a more standardized setup for ease of troubleshooting and understanding.

#### Challenges

- We have been having problems with our patron notifications. Email receipts for checked-out items have been down for some time with seemingly no end in sight. We also had a few hiccups with our phone notifications. We have been struggling with getting the necessary support from Innovative and have had to escalate our tickets several times.
- One of the reasons we found the phone notification troubleshooting to be so difficult was that the documentation on this system was lacking. This has been a struggle in IT as very little was previously documented. As we move forward with these types of issues, we strive to create useful documentation for future reference, but this often slows the process and can be frustrating.

#### July 2023 Usage Stats

#### Key Takeaways:

- Most stats held steady compared to the previous month.
- Digital circulations have consistently been higher than at the same point last year. Virtual borrowers and e-audiobook circulations continue to climb.
- With school out of session, database usage remained low.
- A change in Google Analytics resulted in an unusually high count for website pageviews. Outliers were removed to adjust the count, though it remains a bit higher than usual.

#### About the Dashboards:

- Percentages in dark blue boxes represent positive change.
- Percentages in gray boxes represent negative or no change.
- Sparklines are small line graphs without axes. They represent the ups and downs of each metric since January 2019, with the end of the line being the most recent month.

#### About the Metrics:

- <u>Patrons Served</u>: This metric counts the number of people who physically visit the library in three possible ways: entering the Windsor-Severance Library building, visiting the Bookmobile, and attending Outreach events.
- <u>Circulation</u>: Circulation includes the checkouts and renewals of all physical items, checkouts and renewals of downloadable and streaming content, and database usage.
- <u>Programs</u>: Program attendance is the combined count of attendees to in-person and virtual programs. This section also includes the total number of virtual and in-person programs, and a count of waitlisted patrons for programs at full capacity.
- <u>Cardholders</u>: Active cardholders had some kind of activity associated with their library account in the past month, including checkouts, renewals, and virtual borrowing. New cardholders are patrons who signed up for a new card in the past month.
- <u>Website Stats</u>: Pageviews represents the number of times a page on the library website was visited.

Colorado remains a popular place to do business due to lower taxes. Weld County has been able to maintain a real estate property tax level that is significantly lower than the surrounding areas due to extensive oil & gas activities.

**PROPERTY TAXES** 

Industrial or commercial property (buildings, land and equipment) is assessed at 29% of market value. The state does not levy a property tax; however, counties do via tax districts and mill levies. How do mill levies work?

The mill levy represents the dollars levied for each \$1,000 of assessed value. For example, with a mill levy of 95.000 mills, the property owner would pay \$95.00 for every \$1,000 in assessed value.

#### STATE UNEMPLOYMENT INSURANCE

New employers start paying UI premiums at a beginning rate depending on the type of business activity. For rate year 2023 the rate consists of only the base rate. There are no surcharges in effect for 2023. New employers in construction-related industries may be subject to a different beginning rate.

## MEMORANDUM

To: Library Board of TrusteesVia: Ann Kling, Library Director (include if prepared by staff)From: Ann Kling, Library Director

Date: August 31, 2023 Re: Agreement with CAC for Marketing Services Item 5.3: New Business

#### Background / Discussion

The expansion of facilities for the library district necessitates a naming convention for the branch library in Severance, a renaming of the library in Windsor, and a plan for naming future library buildings. In addition, a new logo that represents the entire district needs to be created and adopted, and branding elements need to be enhanced. The assistance of a marketing consultant is required to complete these tasks. An RFP was posted in early summer. Three firms responded. Cordelia Anderson Consulting (CAC) was chosen as the best fit for this project.

#### **Budget Considerations**

Funds were budgeted in the Consultants line of the 2023 budget to cover the costs.

#### Recommendation(s)

The Director and Management Team recommend approval of the agreement with CAC for marketing services.

## MEMORANDUM

To: Library Board of TrusteesVia: Ann Kling, Library DirectorFrom: Beth Gallinger, IT/Technical Services Manager

Date: August 31, 2023 Re: RFID Book drops for the library in Severance Item 5.3: New Business

#### Background / Discussion

Having RFID bookdrops will save staff time. Items returned in the book drops will immediately be removed from patrons accounts, freeing the staff from checking in the items. This will allow staff to spend more time with patrons as opposed to handling materials.

Other vendors were consulted, and none were able to provide the technology needed to automate this process, making Bibliotheca the sole source.

#### **Budget Considerations**

Funding for the bookdrops is part of the Technology Budget (FFE Budget) for the building project.

#### Recommendation(s)

The Director and the IT/Technical Services Manager recommend approval.
